

We Specialize in Commercial

Monuments

Westwind Graphics is a full service monument sign company. We have 40 styles of sturdy and attractive monuments for you to choose from. Simply pick the Model Number that goes best with your architecture, then select what type of signage or lettering you want applied. We offer 3 D Letters that can be applied directly to the sign or we can make a separate sign that will be attached to the front.

In Northern Colorado only: In addition to your sign, we are licensed / insured contractors with the City of Loveland and we can take care of obtaining your permit as well as installation of your sign.

Outside Northern Colorado we can ship directly to you with easy installation instructions.

Our sturdy and attractive Sign Monument Solutions are custom built to order and cost less than half the costs of having a traditional brick mason do the work onsite!

How Sign Monuments Are Made:

Westwind Graphics offers a variety of three dimensional monuments. These structures are fabricated of a solid shaped polystyrene core, which is sealed with a thick layer of polyurethane, and finished with a textured acrylic finish. The exterior structures are lightweight, easy to install, and a perfect structure solution for a sandblasted sign, lettering or other sign attached to the front.

1. Core of structure is molded expanded polystyrene (1#CF).
2. Aromatic fast cure urethane, impact resistant, hard coat finish.
3. Textured finished surface is 100% aggregated acrylic and very tough.
4. 3" or 4" PVC (schedule 40) pipe is bonded into center of structure.

Then we paint them and add 3 dimensional letters, logos or a sign to the front face.

We can also add faux finishes to them to look like just brick, stone, granite, rock or bamboo.

Prices do not include: Sign or lettering or special finishes on the face, installation, permit fees or taxes.

Terms: We request approx 50% deposit when ordering. Balance is due on receipt.

We accept VISA, Mastercard, C.O.D. and checks or money orders.
